

ALUHOM successfully participated in IndiaWood 2026, held in Bangalore from February 26 to March 2, 2026, where we showcased our innovative aluminium honeycomb panel cabinetry solutions for kitchens, wardrobes, and outdoor applications.

The event was a great success, attracting architects, interior designers, builders, dealers, and homeowners who showed strong interest in our 100% waterproof, fire-resistant, termite-proof, and rust-free aluminium cabinetry. We received a large number of positive responses, valuable feedback, and promising business inquiries, making the exhibition a highly successful milestone for ALUHOM.
